RE: **2025 KSTD Septage & Leachate Price Adjustment – Minimum Charge**

Dear Valued Hauler,

I am writing you today to inform you that the KSTD Board of Trustees has approved a minimum charge of **\$25.00** for all septage hauler deliveries to KSTD. This change will take effect beginning **July 1, 2025**. There will no longer be any “no charge” deliveries to the District. This change is related to pump-outs for homes / industries on public sewer in District. As you may or may not know, every gallon of septage, leachate, or even pump out waste needs to be tabulated and reported to Maine DEP every month. This requires our staff to enter the data to tabulate, and also for our managerial staff to review/approve the report before it gets sent off. While we understand a customer requiring a pump out may be on public sewer, the process of receiving and reporting the gallonage to the state requires staff time over and above regular duties. We appreciate your understanding on this matter. Please note that septage and leachate rates remain unchanged from May 13, 2024. The only change was the minimum charge.

Table 1 - Summary of KSTD Septage and Leachate Disposal Rates effective July 1, 2025.
